

ULTRAMOD[®], SUPERMOD[®] and EXTRAMOD[®]

Cold-rolled strip with electromagnetic properties

your solution
our ambition
worldwide

engineered by BILSTEIN GROUP

CUSTOMIZABLE ELECTROMAGNETIC PROPERTIES

ULTRAMOD® | SUPERMOD® | EXTRAMOD®

The BILSTEIN GROUP product family ULTRAMOD®, SUPERMOD® and EXTRAMOD® is qualified as a cold-rolled strip solution for the use in electromagnetical components and applications.

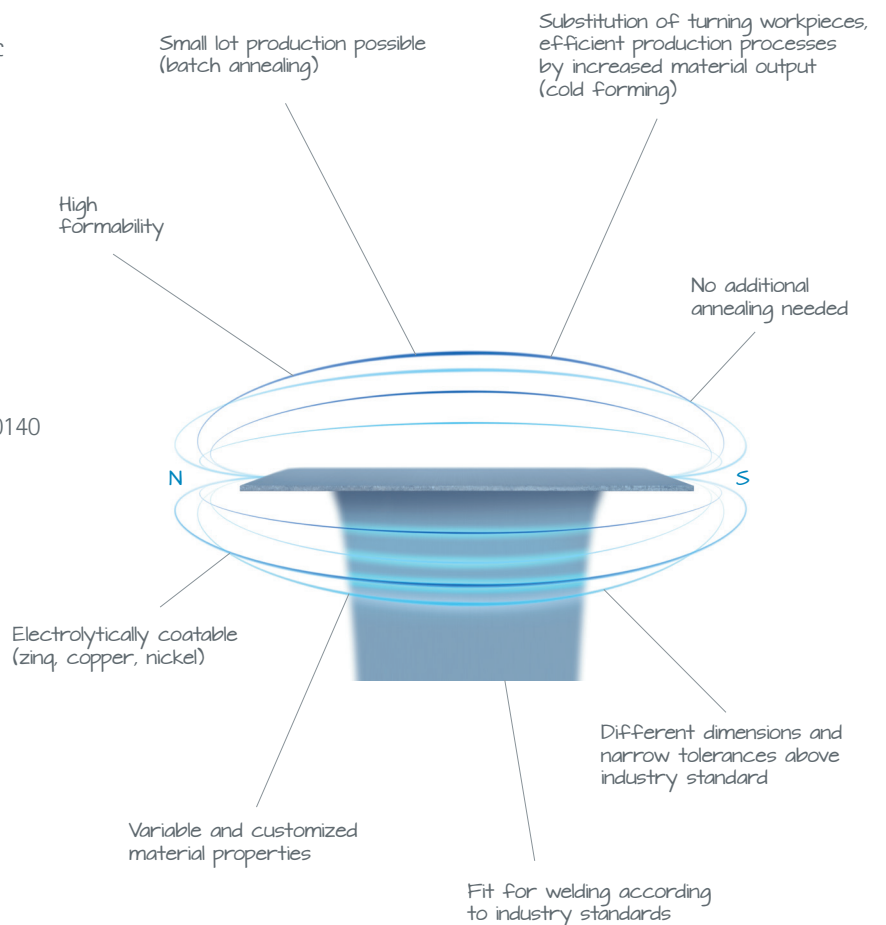

The electromagnetical properties can be customized between 60 A/m and 250 A/m fit for direct use in specific applications.

Naturally with all the advantages of cold-rolled strip engineered by BILSTEIN GROUP:

- strict tolerances
- optimized product properties according to specific needs
- premium surface qualities, customizable and coatable
- meet minimum requirements of DIN EN 10139 und 10140

	ULTRAMOD®	SUPERMOD®	EXTRAMOD®
Coercive field strength (HC (A/m))	≥ 60	≥ 80	≥ 160
